

UNIREX™ EP Series

Mobil Grease , Canada

Premium Quality Heavy Duty Greases

Product Description

The UNIREX™ EP family of greases are high performance and extremely versatile long-life premium performance greases. Mobil Unirex grades have been form with high quality basestocks, proprietary high performance lithium complex thickener technology and an additive package designed to provide outstanding protection, excellent rust and corrosion protection and very good resistance to thermal, oxidative and structural degradation in high temperature applications. meets the challenges in demanding applications in many industries including transportation, manufacturing, construction, mining, logging, cement, marine and making, where a grease must perform well in a multitude of different severe applications.

Features and Benefits

Features	Advantages and Potential Benefits
Outstanding adhesion and water resistance	Stays-in-place and resists wash-out in the presence of water, thereby extending lubrication intervals and he equipment to last longer
Excellent protection against rust and corrosion	Keeps the lubricated surfaces protected, thereby reducing component wear and damage and helping to e: equipment life
Potent extreme pressure/wear protection	Designed to protect components under severe load and shock conditions, thereby reducing wear and incre component life
	Designed to provide excellent service in severe high temperature applications, helps to extend lubricant and comp life
Excellent high temperature stability and service life	Designed to provide excellent service in severe high temperature applications, helps to extend lubricant and comp life

Applications

- In applications where NLGI service classification GC/LB quality is required or preferred (EP 1 / EP 2)
- In chassis applications for on-road and off road equipment, where excellent adhesion and water resistance are required
- In a multitude of applications indoors and outdoors, in stationary and mobile equipment, in high and low temperature applications
- As a multi-purpose grease for use in a wide variety of applications, allowing for consolidation and simplification

Specifications and Approvals

This product has the following approvals:	EP-2
Meritor O665 Permalube U-Joint Grease	X
