## Mobil Pegasus™ 705

Mobil Industrial , Turkey

Gas Engine Oil

#### **Product Description**

Mobil Pegasus 705 is a premium high performance SAE 40 gas engine oil formulated to lubricate a wide range of natural gas fuelled engines. It is recommended newer stoichiometric and lean burn high-speed four-cycle engines that are sensitive to valve face and seat wear. This oil is also recommended for the lubrication gas compressors and wide range of engines requiring low ash oil. Pegasus 705 is formulated from select high quality, mineral base oils and an advanced techi additive system engineered to provide excellent protection of engine and compressor components and reduced levels of combustion chamber deposits. It e exceptional chemical stability and resistance to oxidation and nitration resulting in longer oil life and lower filter replacement costs. These performance adva combined with outstanding detergency and dispersancy properties minimise the formation of ash and carbon deposits that could result in poor engine performandetonation.

Pegasus 705 exhibits excellent anti-corrosion properties that prevent corrosive wear in cylinders, valve areas and bearings resulting in longer engine life. Its high leanti-wear performance reduces wear of rings, liners, and bearings. It also provides exceptional valve seat and face protection and reduces the wear and deposit form in the critical valve guides of highly loaded turbocharged four-cycle engines.

#### Features and Benefits

Mobil Pegasus 705 gas engine oil provides for cleaner engines, lower wear rates and improved engine performance. The product is particularly beneficial in incr valve life and engine performance in the newer lean-burn, design high-speed four-cycle engines operating under heavy loads. The result is reduced maintenance and improved production capacity. The excellent chemical and oxidation stability results in longer drain periods and reduced filter costs. Pegasus 705 reduces as carbon formation in combustion chambers resulting in lower maintenance costs while improving engine performance and reducing fuel costs.

Features	Advantages and Potential Benefits
Excellent Anti-wear and Anti-scuff Properties	Lower wear of engine components  Reduced scuffing of liners of highly loaded gas engines  Provides excellent break-in protection
Exceptional Oxidation and Chemical Stability	Cleaner engines  Extended drain intervals  Reduced filter costs  Excellent resistance to oxidation and nitration  Reduces coking and formation of undercrown deposits
Low Ash Formulation	Reduces valve seat, face and guide wear  Controls combustion chamber ash formation and improves spark plug performance  Improved engine performance  Lower fuel costs
Corrosion Resistance	Reduces valve guide wear in four stroke-cycle gas engines  Protects bearings and internal components
Outstanding Detergency and Dispersancy Properties	Cleaner engines Improved upper cylinder performance Longer filter life Lower maintenance costs

## Applications

- High-speed lean-burn and stoichiometric gas engines sensitive to vlve seat recession
- Crankcases and power cylinders of spark-ignited two and four-stroke cycle gas engines
- Recommended for applications requiring low ash formulations
- Reciprocating natural gas compressor cylinders
- · High output or ambient rated engines operating at or in excess of rated capacity under high temperatures
- Engines operating on fuel containing low levels of hydrogen sulphide

## Specifications and Approvals

# This product has the following approvals: INNIO Jenbacher TI 1000-1108 (Class A fuel gas, Type 9) INNIO Jenbacher TI 1000-1109 (Class A fuel gas, Type 2, 3, 4 & 6) INNIO Jenbacher TI 1000-1109 (Class B fuel gas, Type 4 & 6) MAN M 3271-2 MTU Gas Engines S4000 L32, L33 using natural gas MWM TR 0199-99-2105, Lube Oils for Gas Engines: TCG2016 < 48.5 kWe / cyl. TCG2020 < 95.0 kWe / cyl. TCG2032 < 260.0 kWe / cyl. TC Perkins Gas Engine Oil - Natural Gas Wartsila 220SG Wartsila 28SG Wartsila 32DF Wartsila 34SG Wartsila W12V150SG, W12V175SG, W16V175SG Wartsila W25SG Rolls-Royce Solutions Augsburg (former MTU Onsite Energy) Gas Engines Series 400 - all engines with natural gas and propane gas INNIO Jenbacher TI 1000-1109 (Class C fuel gas, Type 4A, 4B & 4C) MTU Gas Engines S4000 L61, L62, L63 using natural gas

**Properties and Specifications** 

Caterpillar

This product meets or exceeds the requirements of:

Property	
Grade	SAE 40
Pour Point, °C, ASTM D97	-18

Mobil Pegasus™ 705 Page 3 of 3

Property	
Ash, Sulfated, mass%, ASTM D874	
Kinematic Viscosity @ 100 C, mm2/s, ASTM D445	
Flash Point, Cleveland Open Cup, °C, ASTM D92	
Density 15 C, kg/L, CALCULATED	
Base Number - Xylene/Acetic Acid, mg KOH/g, ASTM D2896 (*)	
Kinematic Viscosity @ 40 C, mm2/s, ASTM D445	
Viscosity Index, ASTM D2270	98

(\*) use of other ASTM approved solvents may yield different results.
