## Mobilfluid™ 125

Mobil Industrial, Czech Republic

Extra High Performance Power Transmission Fluid

## **Product Description**

Mobilfluid 125 is an extra high performance power transmission fluid that is formulated for use in hydrodynamic gears and hydraulic systems typically found in railroad, marine, construction, and industrial applications. It is formulated using high performance basestocks and advanced additives to deliver the precise performance required to transfer power responsively. Mobilfluid 125 is engineered to withstand the stresses of heavy-duty, low and high speed applications in a wide range of severe operating environments.

#### Features and Benefits

The use of hydrodynamic gear systems and hydraulic control systems depends on high performance fluids to achieve consistent and responsive control and efficiency of the equipment. These systems operate under high pressures and temperatures that can cause deposits in control valves where precise control of torque converters and hydraulics takes place. The key benefits of Mobilfluid 125 include:

Features	Advantages and Potential Benefits	
Good wear protection	Extended component life, increased productivity, and lower maintenance costs	
Effective resistance to thermal degradation and oxidation	Significant reduction in harmful lacquers, deposits, and sludge  Maintains power transfer and good control response  Extends oil service life	
Good low temperature properties	Easy start-up and responsive hydraulic control	
Effective rust and corrosion protection including long stoppages in wet or humid ambient conditions	Reduces wear with reliable equipment start-up and lower maintenance costs	
Excellent air release properties eliminate foaming problems	Delivers optimal hydraulic response and power transfer  Maintains fluid film for improved lubrication	
Compatible with seals and gasket materials used in these systems	Reduced fluid leakage, pressure losses, and contamination	

## Applications

Recommended by ExxonMobil for use in:

· Fluid couplings and drives, torque converters, and hydraulic control systems used in railroad, marine, construction, and industrial applications

## Specifications and Approvals

This product ha	es the following	approvals:
-----------------	------------------	------------

Voith Turbo 120.00059010

# **Properties and Specifications**

Mobilfluid™ 125 Page 2 of 2

Property	
Grade	ISO 32
Density @ 15 C, g/cm3, ASTM D4052	0.878
Flash Point, Cleveland Open Cup, °C, ASTM D92	225
Kinematic Viscosity @ 100 C, mm2/s, ASTM D445	5.3
Kinematic Viscosity @ 40 C, mm2/s, ASTM D445	30
Pour Point, °C, ASTM D97	-30
Viscosity Index, ASTM D2270	104

#### Health and safety
