

Mobil Antifreeze

Mobil Commercial Vehicle Lube , 中国

High Performance Antifreeze

Product Description

Mobil Antifreeze is a high performance concentrated antifreeze formula that may be diluted with water prior to use.

Features and Benefits

Mobil Antifreeze contains Mono Ethylene Glycol and helps to prevent winter freezing and summer overheating.

Applications

Mobil Antifreeze may be diluted with water before use. It is hard water compatible and can be mixed with tap water before filling into the cooling system. However, from mining, sea water, brackish water, brine, industrial waste water must be avoided.

Recommended Water Specifications	
Total Hardness, ppm max.	170
Total Solid Content, ppm max.	340
pH	5.5 ~ 9.0
Chlorine Content, ppm max.	40
Sulphuric acid, ppm max.	100

Dilution Table

Antifreeze	Water	Freeze protection
100%	0%	-45°C
90%	10%	-40°C
80%	20%	-33.5°C
70%	30%	-25.5°C
60%	40%	-19°C
50%	50%	-13°C

Typical Properties

Mobil Antifreeze	
Color	Yellowish Green
Density at 20°C, kg/litre	1.08
Boiling Point, °C	>108
pH value	8.4

Mobil Antifreeze	
Water Content, %	42

Health and Safety

Based on available information, this product is not expected to produce adverse effects on health when used for the intended application and the recommendations provided in the Material Safety Data Sheet (MSDS) are followed. MSDS's are available upon request through your sales contract office or via the Internet, or provided by seller to customers if and as legally required. This product should not be used for purposes other than its intended use. If disposing of used product, take care to protect the environment.
