

Mobilgrease™ EP Series

Mobil Grease, 中国

Grease

Product Description

Mobilgrease™ EP Series is a general purpose lithium-calcium grease formulated to provide protection against wear, corrosion and water washout. They are available in NLGI grades ranging from 0 to 3 with a base oil viscosity of ISO VG 150.

Mobilgrease EP series grease are recommended for most types of industrial applications. The recommended operating temperature range is from -20°C to 120°C.

Features and Benefits

- Reduced wear under heavily loaded equipment
- Good mechanical stability
- Protection against rust and corrosion and resistance to water washout
- Extreme pressure performance

Applications

- Mobilgrease EP 0 and 1 provide good pumpability and are suitable for centralized lubrication systems
- Mobilgrease EP 2 is recommended for multipurpose applications in antifriction and plain bearings, bushings and pins under normal operating conditions.
- Mobilgrease EP 3 is a stiffer NLGI grade 3 grease recommended for applications where maximum protection against penetration of water or solid contaminants is required.
