

## Mobil DTE™ PM Excel Series

Mobil Industrial , Sweden

Paper Machine Lubricant

### Product Description

Mobil DTE™ PM Excel is a multi-functional paper machine oil for use in wet end, dry end, press sections and calender circulation oil systems. The fluid has been formulated with select high-quality base oils and a proprietary advanced technology additive system carefully balanced to achieve high performance standards and provide maximum protection of gears and bearings operating under severe conditions.

### Features and Benefits

Mobil DTE PM Excel has the following potential benefits:

- Excellent anti-wear protection of bearings and gears of system components using various metallurgy help extend component life
- Ultra keep clean properties reduce system deposits and sludge help protect equipment and extend equipment life, which can reduce maintenance costs and improve total system performance
- Exceptional thermal / oxidation stability help reduce maintenance downtime and costs by contributing to system cleanliness and deposit reduction, which can enable long oil and filter life
- Meets wide range of equipment requirements which helps avoid risk of mis-application and enable potential inventory reduction
- High level rust and corrosion protection which can help improve production capacity

### Applications

- Lubrication of the wet end, press section, calender applications and dry end, including in Voith and Metso (Valmet) paper machines
- Application involving circulation systems operating over a wide temperature range
- Systems that must be started and brought on line quickly
- Circulation systems' lubricating gears and bearings
